Esteem Early Help Team

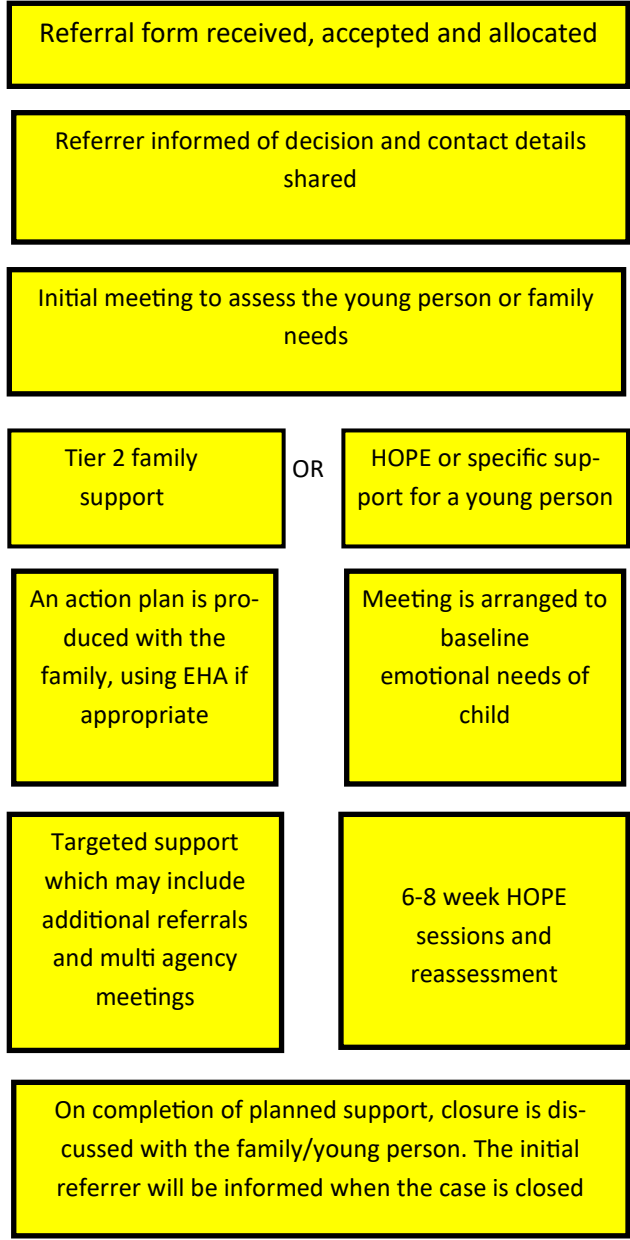

Helping Our Pupils Emotions

The Hope Project is a low-level (Tier two) early intervention project aimed at supporting the emotional needs of pupils in schools. This is through 1:1 listening sessions and or group activities.

HOPE is usually a 6-8 week programme of weekly 1:1 sessions.

HOPE is not a counselling or a therapy service.

What is Early Help?

What? Early help means taking action to support a child, young person or their family early in the life of a problem, as soon as it emerges.

Early Help is safeguarding—but it is not child protection.

The right early help at the right time can prevent some families escalating into child protection.

Who? It can apply to all children, young people and their families who need support within the threshold of Tier 2. For guidance on thresholds please go on the [Derbyshire.gov.uk](https://www.derbyshire.gov.uk) website, search 'early help,' there is a information document on early help and a link to guidance on thresholds.

Why? Early help is provided to prevent or reduce the need for specialist interventions unless they are absolutely the correct response to meet the need and resolve the problem.

How? By completing a referral to the Early Help Team. If accepted, this referral will be allocated to a Early Help Key worker.
